Max Möbus (Moebus)

Zurich, Switzerland

max.moebus@inf.ethz.ch | maxmoebus.com | maxmoebus | 0000-0003-3414-7142 | Max Moebus

Education

SIPLAB, ETH Zurich — *Zurich, CH*

PhD in Computer Science at the Sensing, Interaction & Perception Lab with Prof. Christian Holz — *Apr 2022 - present*

- **Research focus:** Biomedical Time Series for Mobile and Predictive Health
  - **Part I :** Identifying drivers of subjective health (e.g., fatigue ratings) from wearable sensor data in intensive longitudinal studies [95% done]
  - **Part II :** Modeling disease and mortality risk from multimodal biomedical time series data on the UK Biobank (500k participants) [50% done]
  - **Part III:** Enhancing statistical methods for irregular and multimodal time series with a focus on interpretability [just started]
- Organized courses with 100+ students per year as Head Teaching Assistant
- Supervised and mentored 17 student theses

University of Oxford, Lincoln College — *Oxford, UK*

M.Sc. in Statistical Science — Final Result: Pass with Merit — *Oct 2020 - Sept 2021*

- **Thesis:** Model comparison for option pricing in Lévy stochastic volatility via simulation (Result: Distinction)
- **Core Modules:** Computational Statistics, Statistical Machine Learning, Bayesian Simulation Methods, Applied Statistics

University College London (UCL) — *London, UK*

B.Sc. in Statistical Science — Final Result: First Class Honours (79%) — *Sept 2017 - July 2020*

- **Prizes:** Undergraduate Project Prize for final year thesis (82.6%), UCL Sports Colours Award for UCLFC engagement
- **Thesis:** Applications of Optimal Transport Theory in Machine Learning (e.g., Wasserstein GANs)
- **Core Modules:** Statistical Inference, Stochastic Methods in Finance, Decision & Risk, Operations Research, Forecasting
- Held tutorial sessions about Probability and Inference during my final year for Prof. Yvo Pokern

Otto-Hahn-Gymnasium Bensberg — *Cologne, DE*

Abitur – Final Result: 840 points, Top of Class and Top 1% in Germany, Student Representative — *Aug 2008 - Jul 2016*

Work Experience in Academia

SIPLAB, ETH Zurich — *Zurich, CH*

Research Assistant at the Sensing, Interaction & Perception Lab with Prof. Christian Holz — *Oct 2021 - March 2022*

- Analyzed wearable sensor data to identify objectively measurable predictors of subjective health in MS patients

Saïd Business School, University of Oxford — *Oxford, UK*

Graduate Research Assistant with Prof. Mari Sako and Dr Matthias Qian — *March 2021 - Sept 2021*

- Constructed customizable NLP models for the Oxford Sentence Annotator: a smart text annotator built in collaboration with OpenOcean VC
- Analyzed US and UK legal-tech industry as part of 2021 SRA report: Technology and Innovation in Legal Services

Work Experience in Industry

Amazon — *London, UK*

Intern, Business Analyst: European Transportation Team — *June 2020 - Sept 2020*

- Created automated statistical tests to detect improvements on poor performing lanes (used for 3bn packages a year)
- Built fully automated analysis process to tackle regularly low performing routes (root cause analysis in PowerBI based on custom scripts witten in R, ETL data pipeline in SQL, validation & upload of data using Python, automated email communication with carriers using VBA)

Auto1 Group — *Berlin, DE*

Intern, Business Analytics — *June 2019 - Sept 2019*

- Constructed predictive models that forecast claim rates to adjust country-wide budgets (logistic & kNN-regression)
- Developed KPI-dashboards to redefine sales strategy for 26 European countries –– worth £2.5bn of annual revenue
- Built R Shiny web application to identify and analyze underrepresented car types in the company's portfolio

Talanx Group — *Düsseldorf, DE*

Intern, Actuarial Management and Product Development — *June 2018 - Sept 2018*

- Built Excel-Tools to calculate premiums and costs for new private savings and investment products
- Recalculated special customer requests to optimize the performance of newly implemented IT-Systems

Kienbaum Consultants International — *Düsseldorf, DE*

Intern, Management Consulting — Process Excellence Division — *Jan 2017 - March 2017*

- Evaluated customer data (£400m in annual revenue) to identify the most lucrative customer clusters for a world-leading metal fittings producer

Extracurricular Activities

UCL-Football Club (UCLFC) *London, UK*

Social Secretary *July 2019 - June 2020*

- Tackled mental health issues at UCL and increased wellbeing of club with 175 active members through weekly social events

Team Captain of the fifth Team *July 2018 - June 2019*

- Coordinated trials, training, and games to finish first and secure promotion in London University Sports League (LUSL)

Skills & Interests

Programming Languages **Python** [Pandas, Polars, PyTorch, NumPy, ScipPy, Scikit-learn, etc.], **R** [data.table, MGCV, ggplot2], **SQL**

German [native], **English** [fluent]

Interests **Football** [played competitively for 17 years as a central defender or defensive midfielder], **water sports** [sailing and windsurfing in the Mediterranean Sea or Scandinavia], **skiing** [basically a compulsory hobby if in Switzerland], **reading** [The Swarm: A Novel of the Deep, Weapons of Math Destruction, Algorithms to Live By]
